$KAFKA Whitepaper (Short Form)

Kafka ($KAFKA) is a philosophical Web3 project merging pixel-art NFT storytelling, symbolic and aesthetic design, and limited supply tokenomics. It represents a deeper artistic and narrative layer in the Devils Universe.

Key Concepts:

- Fixed supply of 1,000,000 tokens

- Core usage in NFT utility, identity, and future mini-games

- Central symbol: Kafka the flying squirrel - a mystic carrier of the 'Core'

Vision:

To build a rich artistic ecosystem where $KAFKA connects community creativity with functional and emotional assets.
